

# The Elder in Taiwan

Composed by Melody Wang

Hi! Everyone! My name is Fu-mei Chen Lai. You can see I'm not young anymore; actually I'm 76 years old. My husband and I have a lovely family and we live by ourselves. My husband had retired from work and now our children provide us the living expense. Our 4 sons all work and live in other cities. They come to visit us once a while.

In the daily life,  
John and I love  
to do tai chi in  
the nearby park  
with our friends  
together.

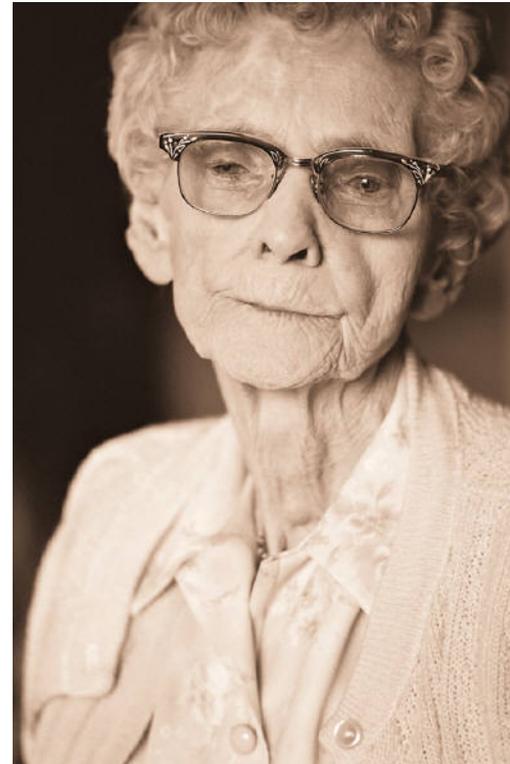

The most exciting  
thing to us is to see  
our growing and  
adorable grandsons  
and granddaughters  
when they come to  
visit us.

# Two years later

- Mrs. Lai lost her beloved husband and her health is going downhill.

Nothing can  
interest me  
anymore.

- Mrs. Lai is very ill and has to stay in a hospital now. Her life totally relies on others' caring. Her children takes turn to visit and take care her every day.
