Safety Information

- 1. Clean your Coil Case $^{\text{TM}}$ regularly after usage and make sure it is dry. Make sure it is well maintained
- 2. The Coil CaseTM is made of water-resistant plastic, however, mold/mildew may form if damp toiletries remain in the Coil CaseTM over long periods of time.
- 3. While the Coil CaseTM is made of plastic, it is not a toy. It is not designed to take a heavy hit or survive falls from considerable heights.
- 4. If any damage done to the Coil Case™ results in a cracked or fully broken piece, finding a replacement part is recommended.
- 5. See page 7 for more information about replacement parts.

Assembly

(1)	Lid
(2)	Middle Layer
(3)	Bottom Layer
(4)	Hinge with Through Pins

Each of the three layers of the Coil Case™ (Parts 1, 2, and 3) are stacked on top of one another in the order part 3, then part 2 then part 1. Part 4 is then inserted into the top left corner (larger diameter hole) of parts 1, 2 and, 3. Once in place, the Coil Case™ should be able to twist open with ease. Once completely closed up, Part 5 should be inserted into the bottom right corner (smaller diameter hole) to lock the layers of the Coil Case™ in place.

Product Usage

The Coil $Case^{TM}$ is designed to fit one of each of the following...

- Shaving Cream
- Comb
- Toothpaste
- Toothbrush
- Travel Size Deodorant
- Floss
- Razor

Pictures of how these items are designed to fit can be seen on page 7. Once these items are inside the Coil $Case^{TM}$, they can be locked inside using the provided pin. Once inserted, you are free to carry your Coil $Case^{TM}$ wherever you go.

Maintenance

It is recommended that the Coil CaseTM is cleaned after every use in order to maintain a sanitary environment for your toiletries. Failure to do so may result in the growth of bacteria inside the case. The case should be disassembled and cleaned using a dishwasher or other means in order to clean all of the surfaces of the case.

Warranty Information

Creative Carry-Ons offers a 90-day money back guarantee on the Coil CaseTM. If you are dissatisfied with the product, you can contact our Customer Service Department about your experience. This warranty excludes any damage caused by the owner attempting to modify the Coil CaseTM or make alterations to the product in any way. This warranty extends 90 days after the date of purchase and cannot be utilized after that window of time.

Customer Service

For any issues you may encounter with any of our products you can contact our Customer Service Department for help. You can also directly contact any of our engineers if you feel the need to do so.

Support: (704) -CAR-RYON

Engineers:
