Dear Colleagues,

Tutorial Services & Supplemental Instruction are partnering to offer end of semester review sessions for select courses with a common final on **Reading Day, December 5th**. Your course, **MATH 1100**, has been selected due in part to its popularity with students seeking assistance throughout the fall semester.

The review will be led by a trained, experienced Tutor or SI Leader who is very familiar with the material. The session will begin promptly at the start time and it is **free** for all students to attend.

We ask that you please inform your class of this opportunity and encourage them to attend. If applicable, we ask that you also post this announcement to your class Moodle page or any other website students frequent.

<u>Course</u>	<u>Review Session Time</u>	<u>Room Reserved</u>
MATH 1100	11:00 – 1:00pm	Fretwell 113
	3:00 – 5:00pm	Fretwell 100

*students should arrive early as seating is limited and these sessions fill up quickly. The same material will be covered in both sessions (common final from spring 2012). Information about this session as well as others is also available online at <http://ucae.uncc.edu/tutorial-services>.

If you notice any of your colleagues have been omitted from this distribution, please pass the word along to them.

Thank you in advance for your support,

Haley Hunt
