

**UNC Charlotte, Department of Electrical and Computer Engineering
ECGR 4101/5101, Fall 2009, Homework #6
Due: 10/21/2009, at the beginning of class (20 points)**

Assignment should be typed, a hard copy turned in to instructor

1. (1 point) How long did this homework take you?
2. (5 points) Read the article "Real Men program in C" (don't worry, real women also program in C!). Based on what the author says, is our ECGR4101/5101 course preparing you for the future or having you learn something just for the sake of learning? Justify your answer.
3. (5 points) Read the article "Building a standard micro architecture". What is the main objective of the article?
4. (9 points) Read the article "Developing a good bedside manner". Based on this article, create a debugging process you plan to use for future programs.
