

Embedded Systems

10/2/14

(1)

Good exam question \rightarrow Temp on RX63N chip & reading w/ADC

Good exam question \rightarrow what is the max signal frequency our RX63N board can measure & identify?

$$\text{NewVoice} = \text{Voice} \gg 2;$$

Algorithm

Setup ADC and DAC

Start ADC, store 10 seconds of data
(Convert to 10-bit)

Output 10-Seconds of data from DAC
