UNC Charlotte, Department of Electrical and Computer Engineering
ECGR 4101/5101, Fall 2014, Homework #4 (20 points)

Assignment should be turned in as a hardcopy during class. Typing is suggested.

1. How much time did this homework assignment take? (be honest!) (1 point)

2. Examine the C programming notes from Lecture 5-7, especially about the voice recorder. Assume I add a "backward" button. Copy all of the code from the slides and show where you need to modify the code to allow the backward button to work (note – this means a doubly-linked list. Hint – you will need to write a new function). 19 points.

3. Book problem 3.5
